

Request for Information – Feedback Summary Sheet

Request made by:	Mandy Chequers	Responses to be sent back to:	Mandy Chequers
Date request made:	20/12/2018	Date sent out:	20/12/2018
Details of Request:	We are looking to change what we use for damp dusting and wondered what other units use?		
No.	Response Received From:	Details of Response:	
1	Jane Sansom Acting Matron ITU Tunbridge Wells Hospital Maidstone and Tunbridge Wells NHS Trust 07719417071	At the Tunbridge Wells Hospital we damp dust daily using Clinell wipes.	
2	Simon Bardon Simon.Bardon@nhs.net	We here at Blackpool Victoria Hospital use the Clinell Universal Wipes (Green Packet) for damp dusting and twice a week or when the bed gets changed over we completely clean it with Haz Tabs...	
3	Sharon Parkinson (CRCU Sister & Quil nurse) Parkinson Sharon (LTHTR) Sharon.Parkinson@lthtr.nhs.uk	At Lancashire Teaching Hospitals we use - Clinell universal wipes.	
4	Yildiz Kaylee (ELHT) Critical Care Kaylee.Yildiz@elht.nhs.uk	At ELHT we use actichlor, and we damp dust x3 times a day on each shift, early late and night.	
5	Jane Adderley Advanced Nurse Practitioner, Department of Critical Care Int Ext: 86384 Direct Dial: 01908 996384 Bleep: 01908 660033 1543 e-mail jane.adderley@mkuh.nhs.uk	In Milton Keynes we use Sanicloth multi surface detergent wipes. We did change to Virusolve which killed VRE however it also damaged glass and plastic therefore we couldn't ensure staff were going to use it on the correct surfaces so went back to detergent wipes with Infection Control agreement.	
6	<i>Mary Beckenham</i> <i>Governance Lead Critical Care</i>	Nottingham University Hospitals Critical care areas use Clinell® universal wipes.
